RE: Reconsideration of MM Docket # 94-144
Amendment of section 73.202(b)
Table of Allotments
FM Broadcast Stations
(Dickeyville, Wisconsin)

To: The Commission:

I would urge you to reconsider the opening of channel 246A in Dickeyville, WI.

I had sent a letter to the Commission on January 24, 1995 in response to the rule making petition adopted December 5, 1994. I have discovered that the letter was never received by any one at the FCC.

I have enclosed a copy of this letter and a coverage map to illustrate my contention that NO channel should be allowed in this area.

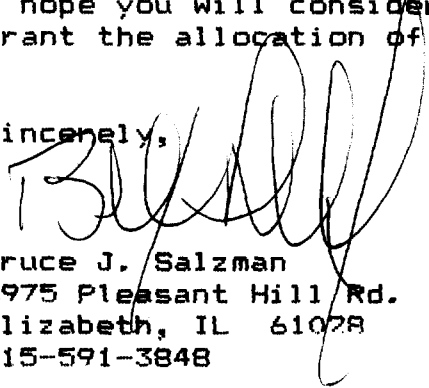

It has also come to my attention that the reaffirming comments listed in the Report and Order, #1. (dated March 28, 1995) from Dri-Five, Inc, a company, whose President is Dale Ganske.

Mr. Ganske is also a partner with Mr. James Munson, who applied for this channel to be allocated. Mr. Ganske is also Mr. Munson's boss at another radio station in Asbury, Iowa (KIKR). This station and the Dickeyville allocation are in the same ADI (Dubuque, Iowa).

Mr. Munson has also applied for channel 291A in Sageville, Iowa (also in the Dubuque, Iowa ADI) to be allocated, which is less than 10km from Dickeyville, Wisconsin.

I hope you will consider this convoluted set of circumstances and not grant the allocation of this new channel.

Sincerely,

Bruce J. Salzman

RE: Amendment of Section 73.202 (b)
Table of Allotments
FM Broadcast Stations
(DICKYVILLE, WISCONSIN)

To: The Commission

This letter is in response to the application for a new radio frequency in Dickeyville, WI.

There is also an application for a new FM channel in Sageville, IA, (Channel 291A) pursued by some of the same applicants. Please take note (on enclosed map) of the relative locations of Sageville, IA and Dickeyville, WI. These areas are less than 10 km apart and are already being serviced by at least seven different FM stations and four AM stations.

I do not believe that Mr. Munson (applicant for both channels) intends to operate both stations.

Please review your placement of these two channels.

Sincerely,

Bruce J. Salzman

RE: Amendment of Section 73.202 (b)
Table of Allotments
FM Broadcast Stations
(SAGEVILLE, IOWA)

To: The Commission

This letter is in response to the application for a new radio frequency in Sageville, IA. I feel that the location of Sageville has been misrepresented in the filing. On exhibit A Sageville is misplaced by at least 5km (enclosed is a corrected map). This changes the city grade and brings it closer to Dubuque, IA.

There is also an application for a new FM channel in Dickeyville, WI, (Channel 266A) pursued by some of the same applicants. Please take note (on the same map) of the relative locations of Sageville, IA and Dickeyville, WI. These areas are less than 10 km apart and are already being serviced by at least seven different FM stations and four AM stations.

I do not believe that Mr. Munson (applicant for both channels) intends to operate both stations.

Please review your placement of these two channels.

Sincerely,

Bruce J. Salzman
